Sir:

It is respectfully requested that a corrected filing receipt be issued in the above-identified application as requested in a fax transmission of March 30, 2005 addressed to the Office of Initial Patent Examination, Filing Receipt Correction. No action was taken by the Patent and Trademark Office with respect to that request resulting in incorrect data appearing on the cover page of published application No. US 2005/0145498 A1. A copy of the March 30, 2005 request for correction of the filing receipt, as received by the USPTO and copied from the file wrapper document list, is enclosed.

It is also respectfully requested that this application, published on July 7, 2005 under number US 2005/0145487 A1, be re-published with the correct information as entered on the attached copy of the first page of the published application.

---

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

(57) ABSTRACT

The invention relates to a coating installation comprising a recipient (1) which is divided into a cathode side (3) and a substrate side (4) by means of a screen (2). The cathode side (3) and the substrate side (4) respectively have a direct extraction outlet (10, 16) and a gas admission (8, 14). The gas admission (8) on the cathode side (3) is connected to a process gas source (9) and the gas admission (14) for the substrate side (4) is connected to a reactive gas source (15).
